## LIGHT STEEL VILLA

### Product Features:

1. Modular Villa is easy to build, low cost, significantly time-saving and labor saving, comparing to the traditional civil buildings
2. Internal design can be customized according to your own stylish villa with bedrooms, living room, kitchen and toilet inside
3. External decoration sheet/internal wall paper is used for better appearances of the house
4. Ceramic tile, ceiling, sit-down toilet, wash basin and shower are conventional arrangements
5. Easy to build. The house is connected by bolts and screws. 6 labors constitute one team, which can install an area of 100 square meters each day
